## Adhesive Backed Mounting Bases | Cable Tie Mounts

### Features:

Adhesive backed cable tie mounts are used together with regular or heavy duty nylon cable ties to secure cables, wires and hoses to walls, ceilings, floors, desks, or any dry metal, plastic, glass, paper, and even painted surfaces. Self-adhesive cable mounts are extremely versatile because of the use of a rubber-based adhesive. The cover base adhesive provides high initial tack and quickly reaches maximum holding strength. The cover base adhesive will hold under continuous temperatures up to 125° F (52° C). The continuous straight-pull rated load is 1 lb. per square inch of adhesive.

### Dimensions

Part Number	Size
CT-ABM-050	1/2"
CT-ABM-075	3/4"
CT-ABM-100	1"
CT-ABM-150	1-1/2"
CT-ABM-200	2"
