[Canusa CFW-D Heavy Wall Adhesive Lined heat shrink tubing](#)

What is Canusa Heavy Wall Adhesive Lined Heat Shrink Tubing?

Canusa Heavy Wall Adhesive Lined Heat Shrink is a thick, abrasion resistant material that “shrinks” when heat is applied to it. This tubing wraps around materials inside of it, creating a secure seal that is resistant to outside environmental forces.

What is Canusa Heavy Wall Adhesive Lined Heat Shrink Tubing Used For?

Canusa Heavy Wall Adhesive Lined Heat Shrink is often used in mechanical applications. Due to its thick walls and insulating adhesive, this heat shrink is great for outdoor or other projects where erosion or scraping is likely.

Features:

- Protects and insulates wire and cables
- Relieve strain and protect mechanics
- UV Resistant
- Simply shrink with a heat gun
- Adhesive lined for added environmental resistance
