Electrical Tape

Electrical Tape is the electrician's tried and true option for insulating electrical wire and other electrically conducting materials. Use electrical tape for protective jacketing, insulating splices, bundling and the harnessing of cables and wires. Our tape is good for many weather conditions and is UV resistant. Electrical tape performs well against abrasion, corrosion, alkalis, and acids.

Dimensions

Part Number	Diameter	Feet
E-TAPE-60	3/4"	60 FT/ROLL
E-TAPE-66	3/4"	66 FT/ROLL
