Flex Tuff Heavy Duty Nylon Braided Cable Sleeving

Flex Tuff expandable nylon braided sleeves are commonly used over industrial hoses, harnesses, and cable assemblies to provide durable protection in excessive abrasion applications. Its open weave construction allows for complete drainage, prevents condensation and provides for dissipation of heat and moisture. This sleeve is suitable for exposure to all weather conditions.

Features:

- Extra durable protection for excessive abrasion applications
- UL recognized
- Exceptional abrasion resistance
- Excellent flexibility
- Demonstrates good chemical resistance
- Excellent chemical resistance permits its use in harsh fluid environments
- Expandable for ease of installation over irregular shapes and enlarged fittings
- Custom braided sleeving produced with uniquely shaped polyamide monofilament
- Uniquely shaped monofilament provides smooth, slick surface resisting snags when dragged over rough surfaces
- Operating temperature 150°C (302°F)
- Standard color: Black

Dimensions

Part Number	Diameter	Feet
BSFXTF-0375	3/8"	1100 FT/SPOOL
BSFXTF-050	1/2"	550 FT/SPOOL
BSFXTF-075	3/4"	550 FT/SPOOL
BSFXTF-100	1"	575 FT/SPOOL
BSFXTF-125	1-1/4"	575 FT/SPOOL
BSFXTF-150	1-1/2"	275 FT/SPOOL
BSFXTF-175	1-3/4"	250 FT/SPOOL
BSFXTF-200	2"	275 FT/SPOOL
BSFXTF-300	3"	275 FT/SPOOL
BSFXTF-350	3-1/2"	250 FT/SPOOL
