Mounting Hole Cable Ties

Our screw mount cable ties are simple to use, featuring a standard type of cable tie together with a mounting hole (see table for screw sizes). This easy to use product is the perfect solution for bundling and mounting wires and cables conveniently in one simple step. These mounting cable ties can be used for a variety of purposes. They are ideal for mounting a wire harness or wire bundle to a rail, wall, ceiling, or rack mount system. Buyheatshrink.com has a wide range of mounted head cable ties, varying in different nominal sizes, loop tensile strength, color and screw hole size that can fit in the mounting hole. All mounted head cable tie options come in convenient bags of 100.

Features:

- All mounted head cable tie options come in convenient bags of 100.
- The 5" (5.9" actual length) mounted head cable tie has a 40 pound loop tensile strength and screw hole size of #8, available in either black or natural.
- The 8" (8.4" actual length) mounted head cable tie has a 50 pound loop tensile strength and screw hole size of #10, available in either black or natural.
- The 11" (12.6" actual length) mounted head cable tie has a 50 pound loop tensile strength and a screw hole size of #10, available in black or natural.
- The 14" (15.3" actual length) mounted head cable tie has a 50 pound loop tensile strength and screw hole size of #10, available in black or natural.
- The 14" (14.8" actual length) mounted head cable tie has a strength of 120 pound loop tensile and screw hole size of 1/4", available in either black or natural.

Dimensions

Part Number	Length	Nominal Size	Actual Length	Max bundle Diameter	Screw Hole	Loop Tensile
CTMH05	5"	5"	5.9"	1.3"	#8	40 LB
CTMH08	8"	8"	7.9"	1.8"	#10	50 LB
CTMH11	11"	11"	12.6"	3.0"	#10	50LB
CTMH14	14"	14"	15.3"	4.0"	#10	50LB
CTMH14-120LB	14"	14"	14.8"	4.0"	1/4"	120 LB
