Non Slip Grip Heat Shrink Tubing 2:1 Ratio

Most of the time when hand grips on items are too worn down or need replacing, they are thrown away. Textured heat shrink allows you to save money since you will not need to buy new equipment. This type of polyolefin heat shrink will conform smoothly to the shape of the item with heating from a heat gun. This textured material will also stop your item from slipping be it in your hand, be it a cable on the ground as well as many other applications. This material can help prevent accidents as people would be less likely to slip if they walk on the textured heat shrink. Even if your grip material is intact, since this textured heat shrink comes in multiple colors (Black, Blue, Green, Red, Yellow), you can better organize your equipment. This material can also be purchased in five sizes: 15mm, 20mm, 25mm, 35mm and 50mm to better serve your needs. All sizes are sold as a 1 meter or 4 foot length.

Dimensions

Part Number	Diameter	Before Shrinking	After shrinking	Piece
HSGRP-15	0.59"	0.563"	0.315"	3.28 FT/PIECE
HSGRP-20	0.787	0.787"	0.433"	3.28 FT/PIECE
HSGRP-25	1"	0.98"	0.57"	3.28 FT/PIECE
HSGRP-35	1.375"	1.37"	0.78"	3.28 FT/PIECE
HSGRP-50	2"	1.97"	1.1"	3.28 FT/PIECE
