Write-On Flag Label Nylon Cable Ties

Features:

Write-On Flag ID Cable Ties is one of the best ways to easily identify your bundled wires and cables. These Write-On Cable Ties have a built in markable label that you can write on. These multipurpose cable marker ties can be used for a wide variety of applications. They are extremely easy to utilize since they have a large white label area to write on. The cable ties are made of UV stabilized nylon and come in six different colors which makes it even easier to identify your bundled items such as cables, wires, luggage and more. When there is only minimal space available, the mini flag cable marker ties will be a better match with the same great features to serve your needs. Additional features include secure dual tang lock, resistant to the elements allowing them to last the life of the cable/wire drop. They can be used with both single and dual cable and will not slide off or spin around.

Dimensions

Part Number	Length	Nominal Size	Flag size	Writable Area
CTWO-03-100	3"	3"	7/8" x 5/8"	5/8" x 9/16"
CTWO-06-100	6"	6"	1-1/8" x 5/8"	1-1/16" x 9/16"
