## [3 Inch Write-On Sidewinder Cable ID Flag Ties | 100 Pack](#)

Sidewinder write-on flag ties are ideal for jobs where there is minimal space but a strong need for differentiating between different wires, pipes, cables etc. These zip ties are only 3” long with the permanently attached label located lengthwise on the product. This allows them to be used in small tight spaces. They are UV stabilized for both you indoor and outdoor needs. The sidewinder ID tags have a generous epoxy-based writing space that can be written on with a permanent marker. Another option is placing a sticker over this label space. In addition to the labels these sidewinder tag cable ties make identification even easier because they also come in many colors including yellow, orange, red, green, and blue. Additional features include secure dual tang lock, resistant to the elements allowing them to last the life of the cable/wire drop. They can be used with both single and dual cable and will not slide off or spin around. For added ease of use they also come in strips of five.

### **Features:**
