Epson LW-PX800 printer

The LW-PX800 is an easy-to-use, flexible and powerful desktop label printer that is an essential tool for the entire workplace. With fast print speeds, a compact design and the best label-creating software on the market, the LW-PX800 gives you the ability to communicate visually across a wide variety of industry applications. Wi-Fi connectivity opens up the printer to multiple users, increasing the flexibility of the printer while substantially reducing costs. The LW-PX800 is the single-source labeling solution everyone in your company will want to use. It can print on more than 163 materials including magnetic tape, heat shrink tube, glow-in-the-dark, and industrial adhesive labels up to 1.5" wide. K-Sun and Epson back the quality of the LW-PX800 with an unrivaled lifetime warranty and expert one-on-one customer service—a combination that can't be beaten.
