PET Colored Expandable Braided Cable Sleeving

Use Polyethylene (PET) Expandable Braided Sleeving for an easy and economical cable organization solution. Suitable for most general purpose wire covering, our expandable sleeving is ideal for bundling jobs that call for a variable diameter to enclose multiple wires or cables. Used in conjunction with terminating Cable Ties or Heat Shrink, expandable braided sleeving accommodates uneven connectors and rigging with visually appealing efficiency. Use for industries such as automotive, electronics, industrial, scuba, Audio/Visual industries, computers, aerospace, and military. And don't overlook the simple efficiency it brings to offices and domestic spaces, where unsightly wires often sit exposed.

Features:

- Excellent cut through and abrasion resistance
- High quality alternative to Bentley Harris Expando PT®, Alpha GRP-110, PET sleeving
- Continuous use temperature of -70°C to 125°C (-103°F to 257°F)
- Melt temperature of 260°C (500°F)
- Expands up to three times its resting diameter
- Halogen Free, ROHS compliant
- Self Extinguishing
- Resists Gasoline, Engine Chemicals & Cleaning Solvents
- Braided from 10 mil polyethylene terephthalate (PET) monofilament yarns.
- Registered in the NASA database for low outgassing (under CS Technical as manufacturer)
- Colors Available: Black, Natural, Red, Orange, Yellow, Green, Blue, Fluorescent Green, FL. Pink, FL Yellow, FL Blue
- ****Also available in Silver coated Mylar®*****

Dimensions

Part Number	Diameter	Expansion Min	Expansion Max
BS0125	1/8"	3/32"	1/4"
BS025	1/4"	1/8"	3/8"
BS0375	3/8"	3/16"	5/8"
BS050	1/2"	1/4"	3/4"
BS0625	5/8"	3/8"	1"
BS075	3/4"	1/2"	1 1/4"
