Start International TBC552L Extra Large Electric Heat Shrink Cutter

The XL Heavy Duty TBC552L cutter measures, cuts and automatically dispenses non-adhesive material. This machine will handle a full workload of cutting all types of tubing, Nomex, ribbon, sleeving, and velcro, etc.

With reliable high speed, the TBC50 cuts 105 ft' (32 meters) per minute. It can handle cuts up to 8.25'' (210 mm) wide and multiple rolls.

Features:

- Ideal for heavy production to cut tubing, sleeving, Nomex®, Velcro®, etc.
- Cut up to 8.25" (210mm) wide material or multiple rolls
- High speed - cuts 105 feet (32 Meters) per minute
- All electric microprocessor controlled
- Easy to use - set length, quantity and feed speed; then, press start
- Adjustable pressure on feed roller for thin or smooth materials
- Accuracy - by means of stepper motor
- Cutter safety guard included
- No tooling required to cut different materials
- Cutting blade is made of high-speed steel (HSS)

Part Number	CUT-TBC552L
